

Standard efficiency wall-hung boilers

Start Aqua

M - FLOW
 U - DHW OUTLET
 G - GAS
 R - RETURN
 E - DHW INLET

- Compliant to Directive 2009/125/EC
- Conventional flue
- Combi model with 45 or 60 liters DHW tank

START AQUA 24 BI	940	600	450	130	54
START AQUA 28 BI	940	600	450	140	58

Start Aqua is a wall-hung boiler with integrated DHW tank that satisfies the demand of small/medium residential users without waiting and at constant temperature, even in case of contemporary requests. Available with output of 24 or 28 kW.

- Built-in 45 or 60 liters stainless steel DHW tank
- High efficiency circulator ($EEL \leq 0,20$)
- The CTR system allows to reach faster the desired temperature and to reduce consumption, limestone production inside the boiler and thermic variations in the heating terminals
- Frost protection of the heating and sanitary circuits up to -3°C
- The remote control panel and the external probe allow the thermoregulation to maximize comfort

ACCESSORIES

Description	Code
Hydraulic and gas connections kit	4047703
DHW expansion vessel (2 liters)	4047868
Mounting template kit	4047440
DHW recirculation kit (Aqua model)	4047994
High head pump kit	20105879
Central heating taps	4047476
Central heating taps with filter	4047475
Remote control panel (REC04) (with electronic interface board)	4047446
External probe	4047726
Hydraulic connections cover	4047505
TERMORIELLO DGT (Digital room thermostat)	20059640
CHRONORIELLO 7D WIRELESS (7-day digital room thermostat wireless)	20101747
CHRONORIELLO 7D (7-day digital room thermostat)	20063873

RiCLOUD smart remote control

Description	Code	Notes
RiCLOUD with Wi-Fi box	20117394	(1)
RiCLOUD	20117399	(2)
Wi-Fi box	20117402	
RF-wireless boiler receiver	20117359	

(1) Wi-Fi box included to connect to the home Wi-Fi.

(2) Compatible with RF connection to the Wi-Fi box, cod. 20117402 (accessory not included, necessary to connect to the home Wi-Fi).
